

# GAZA EMERGENCY APPEAL

As the humanitarian crisis in Gaza grows for years, we are working hard to heal the wounds and we are not giving up. We continue our uninterrupted efforts in the field to bring hope to hundreds of thousands of hearts.

## What's Happening in Gaza?

Gaza has been in the midst of an ongoing humanitarian crisis since 2007 due to the blockade and siege, and it continues to struggle relentlessly.

In the attacks that started on October 7, 2023, the people of Gaza are trying to survive in great despair, having suffered the greatest losses in their history. Thousands of people lost their lives in these attacks; tens of thousands were injured. Thousands more are trapped under the rubble. For the survivors, the struggle for life becomes increasingly difficult with each passing day. Hospitals, considered safe zones in Gaza, have also come under attack, and with dwindling energy resources, the healthcare system is on the brink of collapse. The people of Gaza are now engaged in a full-fledged battle for survival.

## What Are We Doing?

We provided emergency health services at Shifa and Indonesia in the first months of 7 October crisis. After those two hospitals were damaged, we have moved our health services to Kuwait and Al-Aqsa Hospitals under difficult conditions with our doctors and nurses who have been working in the region since 2015. We also provide first aid to the injured in the region with our mobile teams. We distribute bread, water, hygiene kits and food packages to the people of the region affected by the attacks. At the same time, we identify the most urgent needs and medical supplies for the continuity of service in hospitals, and we support the healthcare system by meeting the most needed supplies and delivering medical clothing to healthcare workers who have been working continuously in the field. With your support, we continue our work diligently in Gaza and we have reached thousands of people since October 7.

You can follow the latest updates and our activities in the region on our website. Support Gaza now!
