

FROM HEART TO HEART:  
**SPREADING  
GOODNEES & HEALTH**

We set out knowing that the greatest power comes from the heart and transcended boundaries. We reach the hearts in need. We continue to work on the path of kindness we walk, and we truly love this journey.

## What's Happening Around the World?

- While the number of people waiting for humanitarian aid worldwide has increased to 360 million, 260 million people cannot access sufficient and safe food and are struggling with hunger.
- In countries below the poverty line, 148 million children under the age of 5 cannot complete their development in a healthy manner due to malnutrition.
- While 6 million 900 thousand people need humanitarian aid in Chad, this number unfortunately raise to 29 million 200 thousand in Afghanistan. In addition, 875 thousand children under the age of 5 in the region suffer from malnutrition.
- Millions of people are struggling to survive in geographies affected by events such as civil unrest, disasters, diseases, and forced migration.

## Yeryüzü Doktorları Activities

While the world face with these harsh realities, we as Yeryüzü Doktorları, work to reach those in need who cannot access healthcare services or ensure their survival. In regions struggling with humanitarian crises, we provide healthcare services in both surgical and internal medicine specialties, conducting examinations and surgeries with our volunteer medical teams. We establish new health centers or restore the current ones in the regions affected. We also aim to improve the local health systems of those countries.

We know that our work is not only to save lives, but also to touch people and improve their life conditions. We see clearly that how goodness turns into health with self-sacrifice. We will continue to heal each other on this path from heart to heart.

You can follow the latest updates and our activities on our website. Support us and let's spread goodness and health around the world.
